ARNAB CHAKRABORTY, SINGER

**M**ark Knopfler's fifth solo album *Kill To Get Crimson* reinstates the guitarist as one of the best ever. He's been one of the most prolific musicians I have known and this album has made me a bigger fan. I love the sheer simplicity in his compositions and the fact that it is consistent throughout, in spite of the lyrics being deep and meaningful. Also, he has handled the songs immensely well; and I say this because his compositions, his chord progressions exude a complex yet beautiful feel. Also, his arrangement for this album is very old school – he has used instruments which are rarely used in popular music today. My favourite pick of the album is *Heart Full of Holes*, it reminds me of Bob Dylan!
